About

Miami Biologics is committed to advancing patient care through innovative biologics and high-performance surgical solutions. Serving key procedural segments including spine, arthroplasty, trauma, arthroscopy, and cardiothoracic surgery, the company develops and manufactures high-quality products designed to support tissue healing, improve clinical outcomes, and address the practical demands of modern surgery. By combining scientific rigor, product innovation, and a deep focus on clinical value, Miami Biologics delivers solutions that help providers elevate care and improve patients' quality of life.

License and Accreditation

Miami Biologics combines global market expertise with strong partnerships across respected U.S. tissue banks to develop and supply high-quality allograft and tissue-based medical products. Our solutions are designed to support effective patient care across spine, orthopedic, oncology, neurosurgical, trauma, dental, and oral-maxillofacial procedures in the U.S. and international markets. Backed by an ongoing commitment to research and development, we continue to expand our portfolio with innovative biologic solutions that address real clinical needs and support better surgical outcomes.

Certifications

Our array of quality certifications and qualifications are is a testament to our unwavering commitment to quality, compliance, and patient safety.
